### PRESS RELEASE

#### Randall Road UP Bridge Paving

Bridge deck replacement and shoulder work on the south bound lanes of the Randall Road over the UP RR Bridge will begin the evening of Wednesday, August 12, 2009, weather permitting. This bridge is located just south of Keslinger Road. The work will require a temporary lane closure. Randall Road will be reduced to one lane in the southbound direction for approximately 2 weeks. To minimize traffic disruptions the lane closure is scheduled during the off peak hours of 9:00 p.m. to 5:00 a.m. The north bound lanes will not be affected by this work and will remain unchanged.

Motorists are advised to watch out for new lanes configurations and should exercise caution while traveling through the work zone.

Questions and comments should be addressed to Jay Seyller at 630-584-1170.
