

Stearns Road Bridge Corridor Delivery of Large Beams for New Bridge over Fox River Press Release-2-23-2010

Trucks will be delivering steel beams for the New Stearns Bridge over the Fox River. The contractor will enter and exit the construction site off of IL Route 31, south of Concord Avenue. This work will begin the first week of March and is scheduled to last for approximately 3 weeks. On occasion traffic will be interrupted as flaggers stop cars to allow trucks to enter and exit the site.

Please expect delays and exercise caution while traveling through the work zone.

Concerns about this activity should be addressed to David Boesch at 630-845-7875.
